Julie, Did Glen Macki9nlay ever get back to you on the Federal requests. I have a federal attorney calling for 9 additional samples that need to be tested for crack. Before I call her back and tell her that nothing has been done, I wanted to know if Mackinlay contacted you. Chuck

Subject: Great Job

Wow! Thank you all for the fantastic job you did renovating the evidence safe in the Drug Laboratory. The finished product is a much safer, more efficient and colorful place in which to work. I have heard nothing but positive feedback from the evidence room and drug laboratory staff.

This was no small task to accomplish in one day - removing ALL those samples, preparing the room, assembling & installing the shelves and finally, organizing and shelving thousands of samples. It worked thanks to a clever design, thoughtful planning, tenacious calling of vendors, lots of physical labor and a cooperative spirit. I greatly appreciate your hard work (and enthusiasm). It is a pleasure to work with you.

Julie
